

# GRAPHIC ERA HILL UNIVERSITY, DEHRADUN

## Profiling Sheet

**Q.1: Write your career objective.**

My career objective is to become a competent and responsible engineer by continuously enhancing my technical knowledge, practical skills and problem solving ability. I aim to work in a professional organization. To get good amount of skills.

**Q.2: Why do you want to be an engineer? Elaborate reasons.**

I want to be an engineer to transform ideas into practical solutions. Engineering allows me to apply logic, creativity and technical skills. It plays a vital role in technological and societal development. The field offers continuous challenges and learning opportunities. This motivates me to pursue engineering as a long-term career.

**Q.3: Write about projects or internship you have done/ are doing along with the learning.**

I have worked on academic projects related to programming and problem solving. These projects improved my understanding of core engineering concepts. I gained experience in coding, debugging and logical analysis. This learning has increased my confidence and practical exposure.

**Q.4: What would you consider a significant achievement in your life and why?**

According to me one of my significant achievements is getting admission into my engineering program. It reflects my dedication, discipline and academic efforts. This achievement marked the beginning of my professional journey. This motivates me to work harder and set higher goals.

**Q.5: Write about a failure of yours which you consider to share. What have you learned from it?**

One failure, I experienced was not performing well in important academic task. This taught me the importance of time management and consistency. I realized that proper planning is essential for success. I worked on my weak areas for improvement after this experience.

**Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.**

My strengths including problem-solving ability and a willingness to learn. I have demonstrated these strength during academic projects and assignments. I actively participate in team discussions and contribute ideas. I remain calm and focused while handling challenges. These quality help me perform effectively in academic tasks.

**Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?**

One of my weaknesses is overthinking while solving complex problems. It sometimes affects my speed in decision-making. To overcome this, I practice structured problem-solving methods. I also work on improving my time management skills. Regular self-evaluation helps me continuously improve.

**Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?**

One of the most difficult moments I faced was adapting to academic pressure. Managing studies, deadlines, and expectations was challenging initially. Patience and self-discipline helped me overcome this phase. I stayed focused and maintained a positive mindset. This experience strengthened my resilience and confidence.

**Q.9: Apart from academics, what else are you interested in?**

**Make a separate list in terms of extracurricular activities, sports and any other interests.**

Apart from academics, I am actively interested in sports and fitness activities. I enjoyed playing Basketball, which has improved my team work and leadership skills. I regularly do gym exercises.

Exercises to maintain physical fitness and discipline. These activities help me manage stress and stay mentally focused. They also balance my health and lifestyle.

**Q.10:** Give an example of an area, concept or thing that you are absolutely passionate about.

I am absolutely passionate about maintaining a healthy and disciplined lifestyle. Regular physical activity and fitness motivate me to stay focused and energetic. I believe good health directly supports mental clarity and productivity.

**Q.11:** Describe yourself as an individual in 5 lines.

- 1) I am a disciplined, motivated and goal oriented individual.
- 2) I value continuous learning and self improvement.
- 3) I remain calm and focused while handling challenges.
- 4) I believe in team work, honesty and responsibility.
- 5) I always strive to give my best in every task.

**Q.12:** What kinds of people do you enjoy working with?

I love to work with people who are positive and cooperative. I appreciate individuals who are disciplined and goal oriented. People who communicate openly make teamwork more effective. Such environment encourages me to work harder and motivates me.

**Q.13:** What kinds of people you don't want to work with?  
What would you do if they became your senior in your dream job?

~~I think~~ • I prefer not to work with people who lack professionalism or responsibility.  
Negative attitudes can affect team performance. However, I respect hierarchy and professional ethics if such a person became my senior. I would remain respectful.

**Q.14:** What do you expect from your first job? Prioritize and write in order.

- 1) opportunity to learn and apply my technical knowledge
- 2) Guidance and mentorship from experienced professionals
- 3) A positive and ethical work experience & environment
- 4) Exposure to real-world engineering challenges.
- 5) Gradual growth in responsibility and skills to enhance my profile and performance.

**Q.15:** In the past year, what have you been dissatisfied about in your performance?

In first year, I felt that I could have managed my time more effectively. At times, I focused more on understanding concepts than on practical execution. This affected my overall punctuality in some tasks. I am actively working to improve my performance.

**Q.16:** Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?

I would give a rating of 3.5 out of 5 to myself in verbal communication. I am actively working on improving my speaking skills through regular practice.

I participate in C:D and class interactions to gain confidence. Additionally, I focus on improving my vocabulary and clarity while expressing ideas.

**Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?**

My Role model is Dr. A.P.J. Abdul Kalam, a distinguished scientist and engineer. He demonstrate exceptional technical expertise and visionary leadership. His problem solving approach and commitment to innovation inspires me a lot.

**Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?**

My friends are supportive, motivated and positive in nature. They help me in achieving my goals by encouraging me and sharing knowledge. We motivate each other to improve academically and personally. I accompany them because they inspire discipline, teamwork and personal growth.

**Q.19: Write 3 leadership qualities. How many do you possess? Write an instance where you have applied those qualities.**

Three leadership qualities are technical understanding, communication and team work. I possess all three qualities to a practical extent. I applied them during a group mini project.

**Q.20: So finally, tell us something more about yourself or introduce yourself.**

~~My name is~~ I am Akshat Dobhal, I am currently pursuing B.tech computer science Engineering from Graphic Era Hill University. I have done my intermediate from (ISC) Board and my high school from (ICSE) Board education with strong academic foundation.

Talking about my strength I possess good Programming and problem-solving skills with

sound knowledge of IT concepts, I am enthusiastic about learning new technologies and applying them to real-word problems.

- i Additionally I actively participate in Basketball and Gym Activities, which enhance my discipline and team work skills.
